Press Release

October 20, 2015

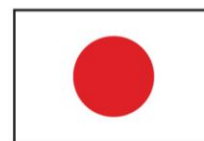

ALSOK Becomes Official Partner for the Tokyo 2020 Olympic and Paralympic Games

ALSOK (Head office, Minato-ku, Tokyo, Japan; Yukiyasu Aoyama, President and Representative Director) is pleased to announce that the company has today signed a Tokyo 2020 Official Partner (Security Services and Planning category) agreement with the Tokyo Organising Committee of the Olympic and Paralympic Games.

The founder of ALSOK led the operations of the Tokyo 1964 Olympic Games. Indeed, this connection with the Olympic Games served as the trigger for the founding of ALSOK in 1965, and to the establishment of the company's management philosophy "to devote ourselves to protecting the security and safety of our customers and society as a whole." Over the years, ALSOK has steadily broadened the scope of its operations with the support of its customers. To date, the company's operations include providing security for large-scale and important facilities and events, security for homes and commercial buildings, and secure transportation of physical cash for financial institutions. In July 2015, ALSOK was delighted to celebrate the 50th anniversary of the company's founding.

During recent years, with the diversifying needs for safety and security, ALSOK's role has grown to exceed the boundaries of traditional security services, developing and offering a wide range of services and playing a part in the development of economic and social infrastructure. The company has also contributed to the promotion of sports in Japan over the years and has supported the development of a number of Olympians in sports such as judo and wrestling.

ALSOK will continue to support the challenges of the athletes for the coming Tokyo 2020 Olympic and Paralympic Games. Being in a responsible position to support the safety and security of customers from around the world, ALSOK will work closely with other partner companies to ensure the success of the Tokyo 2020 Olympic and Paralympic Games.

JOC・JPC / Tokyo 2020 Official Partner (Security services and planning category)
